Preface

The purpose of this preface is to define certain obscure data elements that are reported in the tables, to delineate changes in data element definitions and reporting procedures over the last few years, and to point out occurrences that would affect individual library statistics for the reporting year.

Interpretative Information

In using and interpreting the information in this report, it is important to note the following limitations. First, Utah's cities and counties have differing fiscal years. Thus the data published here for cities reflects the July 1, 2002 to June 30, 2003 fiscal year. County data covers the calendar year, January 1 to December 31, 2003. Second, in most cases all items of data are reported exactly as supplied by the responding library. However, obvious errors and discrepancies were discussed with the librarians and were corrected.

Changes in Definitions or Reporting Procedures

The Index of Financial Effort is an indicator of local governmental support for the library, relative to their financial capacity. As such, the actual index figure is not published, just the range. It has become increasingly difficult to obtain the current fiscal year's assessed valuation of local property in a timely manner, and values generally do not fluctuate drastically. Therefore, the decision was made to use the previous fiscal year's assessed valuation in calculating this indicator, starting with FY 2001. In future years the previous fiscal year's assessed valuation will continue to be used. However, current fiscal year's figures for the local option sales tax and library operating expenditures will be employed.

Explanation of Some Data Elements

Population:

The population figures in this report are based on the 2002 U.S. Bureau of the Census Subcounty Population Estimates (the latest figures available). The population of a taxing entity is assigned to the library that provides the **primary** library service for the taxing entity. "Contract" population may be added to the local population figure. (See below.)

"Contract" Population:

Throughout this report, when a library jurisdiction contracts with another local government entity (city or county) to provide library service to that entity's population, the population is credited to the library providing the service. (See Local Maintenance of Effort explanation below for an exception.) The population for any jurisdiction does not include non-residents who may receive service but whose local government entity is not paying for that service.

Public Service Hours:

In the past, libraries reported "Duplicated" and "Unduplicated Service Hours" based on a complicated procedure of computation. It was determined that the "duplicated hours" (i.e. regularly posted schedule for all outlets) was the most helpful statistic, and libraries now report their total weekly scheduled hours, as well as a yearly figure that takes into account changes in schedules, holidays and other closures.

Local Maintenance of Effort and Local Financial Effort:

One of the provisions of the Public Library Development Grant agreement is that the local jurisdiction continues to support the library at the same level as in the past. The *Jurisdictional Maintenance of Effort Comparison* table (pages 38-39) reflects the extent to which funds have been maintained. This form of maintenance of effort differs from the *Index of Local Financial Effort* (pages 11-12), which shows how much support jurisdictions provide for library service relative to their financial capacity.

Revenue that is received by a library jurisdiction from another local government entity (city or county) for providing free library service to the latter's residents is reported separately as "Local Government Contracts." This "contracted" money is reported for the service jurisdiction in all operating revenue and expenditure figures. However, only the amount actually funded by the local jurisdiction is reported for level of effort (pages 11-12) and maintenance of effort (pages 38-39). Therefore, if a library jurisdiction holds such service contracts, the amount reported for its maintenance of effort will be less than the amount for operating expenditures, and maintenance of effort will be higher than operating expenditures for those jurisdictions contracting for the service. In cases where the contracting jurisdiction has no local library service, the amount will not appear at all on the level of effort or maintenance of effort tables. Populations for those two tables are also adjusted to reflect just the local jurisdictional populations.

Library Anomalies

Each year special circumstances arise in one library or another that may affect their statistics. Those circumstances are listed below. In some cases, the special circumstance may have happened last year and would be detailed in last year's report.

This is the year of the Bill & Melinda Gates Foundation Grants. Many libraries also applied for LSTA Grants to purchase additional Internet stations at the special price.

The reported count of User Sessions of Electronic Resources is low because some of the larger libraries with remote login cannot differentiate between in-house use (as requested) and remote use.

There were many new buildings opened this year:

Cedar City, Salt Lake City, and Santaquin, moved from their old buildings to new or renovated facilities.

Jurisdictions that opened new branches were: Davis County (Syracuse), Rich County (Randolph), Salt Lake County (Herriman), Washington County (New Harmony).

Washington County also reopened the Hurricane Branch that was closed for remodeling.

Conclusion

This publication contains only a portion of the data collected by the State Library Division for the 2003 fiscal year. Many of the charts and tables in this report show summary data only. Using the full set of data elements reported to the State Library for FY 2003, comparative data and a variety of performance measures can be calculated to assist local librarians and elected officials in planning for improved library services. Local public librarians can access the full range of data through Bibliostat Connect. All others wishing additional information may contact Diane Slater at the State Library Division for assistance (telephone: 801/715-6762 or 800/662-9150, or e-mail to dslater@utah.gov).

Introduction

Statewide Library Performance Indicators

Introduction

This annual report of public library services is part of *The Upgrade Process*. This process is a tool for Utah's public librarians and library trustees to use as they work to improve the quality and effectiveness of public library service. The process has three major components:

- Public library service standards;
- A flexible planning process for public library trustees and staff; and
- An evaluation component that includes the use of performance measures.

The Upgrade Process is based on two major premises:

- ♦ That formal planning for improved library services is the responsibility of local librarians, board members, and elected officials; and
- ♦ That local planning can be more effective when it is supported in an appropriate statewide context.

This annual report contributes to creating that statewide context by reporting data useful for local library planning. This information is presented in two sections: core performance measures and general tables.

Core Performance Measures

Because of their potential application to library services planning, and because of their usefulness as general indicators of library service on a statewide basis, six measures have been designated as core performance measures:

- ♦ Visits Per Capita
- ♦ Turnover Rate
- ♦ Expenditures Per Capita
- ♦ Circulation Per Capita
- ♦ Holdings Per Capita
- ♦ Local Financial Effort Index

Pages 5 to 12 provide statewide summary data for these performance measures. Breakouts are also provided by the populations of the library jurisdictions. For each measure, the text gives a general description and identifies some of the factors affecting the measure.

General Tables

The general tables, pages 13-39, report basic library information on a library-by-library basis. Seven tables are given: Basic Library Information, Library Services, Library Resources, Online Access, Library Finances, Comparison of Operating Expenditures, and Jurisdictional Maintenance of Effort Comparison. With each table, additional measures are reported in consolidated charts, and some of the general tables provide trend data for selected library activities.

Interpreting Measures

Although community and individual library circumstances vary, the core measures and general tables can assist Utah's public librarians and trustees as they evaluate library activities and plan improvements in library services. The State Library Division can provide more detailed information to libraries on request. Interested librarians and trustees can obtain their scores on the core performance measures as well as requesting the calculation of additional measures based on their current and past annual reports.

As librarians and trustees use these measures, a number of points should be kept in mind.

- ♦ Analyze the library's scores in terms of library mission, goals, and objectives.

 Libraries, even in communities of similar size, have varying funding patterns and community expectations for service. A reference and resource library will show a different pattern of statistics than a popular materials library will.
- ♦ Realize that online databases and Internet have changed library use patterns.

 Although statewide and national statistics are being collected and reported on some data elements for this service, individual libraries should be tracking further usage in their own locations.
- ♦ Remember that performance measure scores are not absolutes.

 Performance measures are not necessarily precise. Most measures express ratios or are calculated in percentages. Do not be too concerned about "decimal points."
- ♦ Use performance measures in context.

 There are no "right" or "wrong" scores for performance measures. One performance measure alone cannot tell a complete story. Performance measure scores should be interpreted in context with each other and with the library's overall service program and budget.
- ♦ Exercise patience in working toward improving performance measure scores. Changing a library's score on a performance measure is usually not done overnight. Such a change usually requires work over an extended period of time. Suggestions for improving a library's score on selected performance measures can be found in *The Upgrade Process* manual available from the State Library Division.

Visits Per Capita

Visits Per Capita relates the number of people coming into the library to the population of the community its serves. It can be thought of as representing the average number of times during a year that a member of the community used the library. Visits Per Capita is calculated by dividing the library's total annual attendance by the community population.

Factors That Influence the Measure

- Fluctuation in the size of the community
- ♦ Library hours of service—number of hours and schedule
- ♦ Physical arrangement and convenience of the library facilities
- ♦ Community awareness of library service
- Special programs—story hours, book discussions, lectures, etc.
- Library circulation and acquisitions policies, loan period, fines
- Age, condition, and breadth of the library's collection

Interpretation and Use

Visits Per Capita is one measure of the community's use of the library, whether for materials, programs, or meetings. A high score on the measure indicates heavy use of the facility. A low score may indicate several things: For example, 1) the hours the library is open does not fit the needs of the community; 2) the library's collection and/or programming does not meet the community's interests or needs; 3) residents may be unaware of what the library had to offer; 4) the facility may be uninviting.

Visits Per Capita

Population	Number	Visits Per Capita			
Category	of Libraries	Average	Median	High	Low
0 – 2,499	12	5.9	5.8	10.1	1.2
2,500 – 9,999	23	6.9	6.9	14.7	2.5
10,000 – 24,999	17	5.0	5.2	7.8	0.9
25,000 – 99,999	5	4.8	5.6	8.4	0.2
100,000 – Up	4	7.0	6.2	13.0	3.6
Statewide Totals	61	6.2	5.8	14.7	0.2

Circulation Per Capita

Circulation Per Capita relates the number of items a library circulates to the population of the community it serves. It can be thought of as representing the average number of items checked out in a year by a member of the community. Circulation Per Capita is calculated by dividing the library's total annual circulation by the community population.

Factors That Influence the Measure

- Fluctuation in the size of the community
- ♦ Increase or decrease in the number of items circulated annually
- ♦ Library circulation and acquisitions policies, loan period, fines
- Special programs—story hours, book discussions, lectures, etc.
- ♦ Community awareness of library service
- ♦ Library hours of service—number of hours and schedule
- ♦ Number of library users
- Age, condition and breadth of the library's collection
- ♦ Physical arrangement and convenience of the library facilities

Interpretation and Use

Circulation Per Capita is another measure of the community's use of the library. A high score on this measure indicates heavy use of the library's circulating materials. A low score may indicate several things: for example, 1) the library may have an extensive collection of non-circulating materials; 2) the library's collection may not meet community needs or interests; or 3) community residents may be unaware of the library's resources.

Circulation Per Capita

Population	Number	Circulation Per Capita			
Category	of Libraries	Average	Median	High	Low
0 – 2,499	12	12.4	13.0	29.9	2.2
2,500 – 9,999	29	10.2	9.6	35.7	3.7
10,000 – 24,999	19	10.0	9.3	17.6	2.5
25,000 – 99,999	7	10.7	12.5	20.1	1.1
100,000 – Up	5	13.2	11.6	17.6	5.9
Statewide Totals	72	12.1	9.7	35.7	1.1

Turnover Rate

Turnover Rate measures the activity of a library's collection, indicating the number of times each unit of library material would have circulated during the year if circulation had been spread evenly throughout the collection. It is calculated by dividing the library's total annual circulation by total library holdings.

Factors That Influence the Measure

- ♦ Increase or decrease in the annual circulation
- Ratio of circulating to non-circulating materials
- ♦ Circulation policies—loan period, fines
- ♦ Library acquisitions and collection development policies
- Special programs—story hours, book discussions, lectures, etc.
- ♦ Community awareness of library service
- ♦ Library hours of service—number of hours and schedule
- ♦ Number of library users
- Age, condition and breadth of the library's collection
- Physical arrangement and convenience of the library facilities

Interpretation and Use

This measure relates strongly to the goals each library has set for meeting the service needs of its community. A library that emphasizes the circulation of popular reading materials will have a higher Turnover Rate than a library that emphasizes subject breadth in its collection and has an extensive reference collection.

Turnover Rate

Population	Number		Turnove	er Rate	
Category	of Libraries	Average	Median	High	Low
0 – 2,499	12	1.0	1.0	2.5	0.2
2,500 – 9,999	29	1.9	1.7	4.1	0.6
10,000 – 24,999	19	3.0	3.4	5.1	0.6
25,000 – 99,999	7	4.3	4.1	5.9	1.6
100,000 – Up	5	4.8	4.2	5.7	2.9
Statewide Totals	72	4.0	2.4	5.9	0.2

Holdings Per Capita

Holdings Per Capita relates the number of items a library owns to the population of the community it serves. It assesses collection size, not collection quality. To calculate Holdings Per Capita, divide the library's total holdings by the community population.

Factors That Influence the Measure

- ♦ Size of the collection
- ♦ Fluctuation in the size of the community
- ♦ Size of the library materials budget
- ♦ Library collection and weeding policies
- ♦ How the library defines its holdings

Interpretation and Use

Holdings Per Capita is one measure of the match between the size of a library's collection and the community it serves. This measure must be interpreted in connection with other measures, since collection size alone is not necessarily an indicator of quality. For example, Turnover Rate and Circulation Per Capita can be helpful in interpreting this measure.

Holdings Per Capita

Population	Number		Holdings P	er Capita	
Category	of Libraries	Average	Median	High	Low
0 – 2,499	12	12.4	12.2	28.2	4.2
2,500 – 9,999	29	5.4	5.2	14.2	0.9
10,000 – 24,999	19	3.3	2.6	16.7	1.7
25,000 – 99,999	7	2.5	2.3	5.3	0.7
100,000 – Up	5	2.7	2.1	4.1	2.0
Statewide Totals	72	3.0	4.2	28.2	0.7

Expenditures Per Capita

Expenditures Per Capita relates a library's operating expenditures to the population of the community it serves. The figure is obtained by dividing the library's total operating expenditures by the community population. The calculations are based just on a library's operating expenditures (personnel, collection and operations) because Capital Outlay figures may vary dramatically from year to year.

Factors That Influence the Measure

- ♦ Overall local economic conditions
- ♦ Changes in the tax base of local government
- ♦ Demands on local government for all public services, in general, and library service, specifically
- ♦ Community perception of the importance and value of library services
- ♦ Political climate
- ♦ The extent to which certain services (custodial, utility, administrative functions, etc.) are charged to the library's budget
- Changes in the availability of state and federal grants

Interpretation and Use

In general, Expenditures Per Capita reflects the community's financial support in relation to its size, although operating expenditures from other sources of revenue are included. Communities with a lower tax base usually must make a proportionally greater effort to support adequate library services. Although Expenditures Per Capita must be interpreted in conjunction with other measures to document the library's performance, it can provide important information for use by elected officials and the general public as they review the library's budget. To obtain a closer picture of a community's financial support, see Local Financial Effort (pages 11-12) and Maintenance of Effort (pages 31, 38-39)

Expenditures Per Capita

Population	Number		Expenditures	Per Capita	
Category	of Libraries	Average	Median	High	Low
0 - 2,499	12	\$22.46	\$20.04	\$41.56	\$12.93
2,500 – 9,999	29	\$23.55	\$19.11	\$70.72	\$7.95
10,000 – 24,999	19	\$17.57	\$17.32	\$56.96	\$5.68
25,000 – 99,999	7	\$22.84	\$26.03	\$34.71	\$1.80
100,000 – Up	5	\$32.41	\$29.92	\$65.23	\$16.14
Statewide Totals	72	\$27.97	\$19.91	\$70.72	\$1.80

Local Financial Effort Index

The Local Financial Effort Index measures the extent of local government financial support for library services. The financial capacity of Utah's local governments varies, as some cities and counties are wealthier than others.

To measure local financial effort, a common "index point" must be defined. The property tax levy for library services authorized by the *Utah Code* can be used for this purpose. Title 9, Chapter 7 of the *Code* specifies that cities and counties may levy a tax, not to exceed .001 of assessed valuation, as a separate property tax to support library services. Even though not all local governments finance their library services from property taxes, and even though local governments may use other revenue sources to fund library services in excess of the property tax limitation, this figure can be used as an index to indicate local effort.

The index is derived by multiplying the city or county's major sources of revenue (assessed valuation plus local sales and use taxes) by 0.001. This yields a hypothetical maximum figure which the city or county could appropriate to the public library. This figure is then divided into that portion of the library's total operating expenditures derived from revenue received from the local governmental entity. The result is multiplied by 100, yielding an index that reflects the effort made by the local government to support library services in terms of that government's financial capacity.

The dollar figure in parentheses after each library jurisdiction (Index of Local Financial Effort Table on page 12) is the operating expenditures per capita from local government funds only. These figures, in conjunction with the index, show that the wealthier counties may spend more dollars, but may be making a smaller effort than the less affluent counties. Population figures have been adjusted to eliminate "contract populations." (See Preface, pages vii-viii, for explanation.)

Factors That Influence the Measure

- ♦ Overall local economic conditions
- ♦ Changing tax base
- Demands on local government for all public services, in general, and library service, specifically.
- Community perception of the importance and value of library service
- ♦ Strong library board and library support groups
- ♦ Political climate

Interpretation and Use

Knowing the extent to which a city or county government is providing all the financial support possible for its library is valuable information for public librarians and their boards. In submitting and defending their budgets, librarians and trustees must know that the amounts requested are realistic, given the funding base of their community.

Index of Local Financial Effort

	Libraries Grouped by Effort Index Ranges					
Population Category	2.9—20.2	21.0—49.3	49.6—69.3	72.0—171.8

Based on FY 2002 assessed valuation of local property as reported by the Utah State Tax Commission.

Analysis of Basic Library Information

This section on Basic Library Information contains information on population, public service hours, staff, outlets, and visits. "Population" reflects the legal service jurisdiction (plus "contract population"), not the actual number of people served. "Public Service Hours Per Week" is based on a library's posted schedule and includes all outlets for a jurisdiction. "Annual Public Service Hours" reports the actual number of hours a library's outlets were open during the year, taking into consideration holidays and other days the library and/or branch was closed. "Staff" is reported as the equivalent of a full-time (40 hour) person. "Visits" is an annual figure and includes everyone who came into the library for whatever reason.

Public Service Hours Per Week

Population	Number	Public Service Hours Per Week			eek
Category	of Libraries	Average	Median	High	Low
0 – 2,499	12	23.6	24.5	43.2	2.5
2,500 – 9,999	29	37.5	39.0	64.0	6.2
10,000 – 24,999	19	79.3	60.0	320.0	38.0
25,000 – 99,999	7	90.1	60.0	283.2	45.0
100,000 – Up	5	418.6	306.8	1,039.0	69.0
Statewide Totals	72	77.8	47.0	1,039.0	2.5

Visits Per Hours Open

Population	Number		Visits Per H	ours Open	
Category	of Libraries	Average	Median	High	Low
0 - 2,499	12	7.9	8.4	16.8	2.3
2,500 – 9,999	23	18.2	16.4	43.4	7.5
10,000 – 24,999	17	21.8	24.1	50.8	3.6
25,000 – 99,999	5	82.4	72.0	169.2	5.5
100,000 – Up	4	97.2	99.7	201.3	59.5
Statewide Totals	61	44.6	17.0	201.3	2.3

Outlets Per 1,000 Population

Population Category	Number of Libraries	Outlets/1,000 Population
0 - 2,499	12	0.77
2,500 – 9,999	29	0.22
10,000 – 24,999	19	0.11
25,000 – 99,999	7	0.04
100,000 – Up	5	0.02
Statewide Totals	72	0.06

Staff Per 1,000 Population

Population Category	Number of Libraries	Staff/1,000 Population
0 – 2,499	12	0.55
2,500 – 9,999	29	0.50
10,000 – 24,999	19	0.39
25,000 – 99,999	7	0.40
100,000 – Up	5	0.49
Statewide Totals	72	0.46

Staff Per Library Jurisdiction

Analysis of Library Services

This section on Library Services contains information on circulation, reference, interlibrary loan, and programs. This reflects the basic services available at most libraries. The circulation period is important when analyzing circulation patterns, as a shorter circulation period generally results in a higher circulation count. Reference questions may be taken in person, over the telephone, or via e-mail. Many libraries are seeing their reference transactions decrease as more and more patrons do their own searching on the Internet. Interlibrary loan indicates how many materials a library furnishes to, or receives from, other libraries in order to provide information for its patrons. The number of library-sponsored programs demonstrates other services available to the library's patrons.

Comparison of 2002 and 2003 Circulation

Population Category	Number of Libraries	2002 Circulation	2003 Circulation	Percent Change
0—2,499	11	204,023	215,551	5.7%
2,500—9,999	29	1,491,488	1,594,292	6.9%
10,000—24,999	19	3,362,071	3,438,255	2.3%
25,000—99,999	7	3,918,819	4,042,266	3.2%
100,000—Up	5	17,121,873	18,761,820	9.6%
Statewide Totals	71	26,098,274	28,052,184	7.5%

Cost Per Circulation Transaction

This measure divides the count of a library's circulation of materials by its operating expenditures. It is one measure of the cost of doing business. A higher cost per circulation usually reflects other services being offered by the library, especially if the number of visits is high. Patrons may be using the library for Internet access, studying, or programs, for example, instead of checking out materials. The cost of these other services cannot always be measured easily.

Population	Number	Cost Per Circulation Transaction						
Category	of Libraries	Average	Median	High	Low			
0—2,499	12	\$1.82	\$2.14	\$6.84	\$0.96			
2,500—9,999	29	\$2.31	\$2.21	\$7.35	\$0.75			
10,000—24,999	19	\$1.76	\$1.71	\$5.89	\$0.53			
25,000—99,999	7	\$2.13	\$1.72	\$3.95	\$1.39			
100,000—Up	5	\$2.46	\$2.59	\$3.72	\$1.99			
Statewide Totals	72	\$2.31	\$2.03	\$7.35	\$0.53			

Circulation Load Per 1.0 FTE Staff Member

This measure indicates the relative yearly circulation workload in the state's public libraries. It shows the number of items each staff member would circulate to the public in a year if each staff member worked at the circulation desk an equal number of hours per week. It is influenced by such factors as the library's schedule and how many of the library's staff are directly involved in circulation activities. In general, larger libraries have more staff involved in non-circulation activities such as administration, reference, technical services, programming, and public relations.

Population	Number	Circulation Load Per 1.0 FTE						
Category	of Libraries	Average	Median	High	Low			
0—2,499	12	22,504	20,343	46,822	5,323			
2,500—9,999	29	20,168	18,018	88,566	7,047			
10,000—24,999	19	25,709	25,781	66,093	6,856			
25,000—99,999	7	26,583	32,417	35,417	18,211			
100,000—Up	5	27,188	24,435	35,779	16,909			
Statewide Totals	72	26,351	24,072	88,566	5,323			

Reference Questions Per 1,000 Circulation Transactions

This measure is another assessment of workload. A high ratio indicates that the library's staff are spending a greater proportion of their time helping patrons use in-house resources for their research, rather than checking out materials. As with all of the measures, there is no good or bad ratio. Instead, this measure reflects a library's purpose. A popular reading library will have a low ratio because they have very high circulation, whereas a library that stresses research and reference services will have a higher ratio.

Population Category	Number of Libraries	Reference Questions Per 1,000 Circulation Average Median High Low					
0—2,499	9	60.3	105.6	282.0	0.0		
2,500—9,999	22	62.7	55.4	230.5	0.0		
10,000—24,999	15	113.5	106.2	212.9	7.8		
25,000—99,999	5	129.2	102.8	179.6	46.2		
100,000—Up	4	248.1	108.6	1,047.7	69.5		
Statewide Totals	55	181.2	86.1	1,047.7	0.0

Analysis of Library Resources

This section on Library Resources looks at information about the library's collection, including current subscriptions (print and electronic), books, audio-visual, and other materials, as well as the *Public PIONEER* databases. The collections in Utah's libraries continue to increase; however, the rate of increase is slowing as libraries reach their shelving capacity. Libraries are relying more and more on databases, such as those available through *Public PIONEER*, to fill their patrons' needs.

Comparison of Number of Items Held in 2002 and in 2003

Population Category	Number of Libraries	2002 Holdings	2003 Holdings	Percent Change
0—2,499	12	235,532	224,432	-4.7%
2,500—9,999	29	814,704	839,131	3.0%
10,000—24,999	19	1,109,302	1,139,820	2.8%
25,000—99,999	7	891,706	938,933	5.3%
100,000—Up	5	3,802,293	3,875,816	1.9%
Statewide Totals	72	6,853,537	7,018,132	2.4%

Comparison of Number of Subscriptions in 2002 and in 2003

Population Category	Number of Libraries	2002 Subscriptions	2003 Subscriptions	Percent Change
0—2,499	12	130	127	-2.3%
2,500—9,999	29	1,202	1,123	-6.6%
10,000—24,999	19	1,738	1,514	-12.9%
25,000—99,999	7	1,161	1,125	-3.1%
100,000—Up	5	8,901	10,002	12.4%
Statewide Totals	72	13,132	13,891	5.8%

Online Databases

PIONEER: Utah's Online Library offered many full text databases via the Internet in 2003. Not only were the databases available at public libraries throughout Utah, they were also available to public library patrons at home and at work through remote "home" access. At the end of 2003, the following databases were available on Public PIONEER: EBSCOhost (magazines/journals), ProQuest Newsstand (newspapers), Salt Lake Tribune Archives (via ProQuest), Deseret News Archives, Factiva (business information), Mitchell1 (auto repair), Wilson Biographies Plus, AP Photo Archive, LitFINDER (poetry/literature), and SIRS Knowledge Source. Many daily Utah and national newspapers, along with online dictionaries, directories and encyclopedias, were available as well.

Many of Utah's public libraries also subscribed to additional databases. Some were through contracts similar to *PIONEER*, others were in-house databases (usually local information), and some were CD-ROM based information (such as an electronic encyclopedia).

Make-up of the Collection

Traditionally, libraries have consisted of books and magazines; then libraries branched out into other formats, with the larger libraries leading the way. Now, although the emphasis is still on print materials, Utah's libraries show a diverse mix of information formats, including the online resources described above. In the year 2003 the libraries' collections could be described in the following fashion.

D 14:	NT I	Make-up of the Collection						
Population Category	Number of Libraries	Print	Audio	Video	Electron. Format**	Other		
0 – 2,499	12	96.5%	1.9%	1.2%	0.2%	0.2%		
2,500 – 9,999	29	92.8%	3.6%	2.7%	0.1%	0.8%		
10,000 – 24,999	19	93.2%	2.8%	2.9%	0.1%	1.0%		
25,000 – 99,999	7	84.1%	7.0%	6.3%	0.7%	1.9%		
100,000 – Up	5	86.3%	8.3%	5.2%	0.0%	0.2%		
Statewide Totals	72	88.2%	6.5%	4.6%	0.1%	0.6%		

^{**} Includes Public PIONEER databases.

Analysis of Online Access

This section on Online Access describes electronic library services. It provides information on the number of public access Internet workstations available, the number of patrons using the workstations, whether a library's online catalog is available from a remote location, what kind of remote access can be used, and the speed of the connection.

Electronic services have had a tremendous impact on public libraries. Library staff have learned new skills and have trained the public to use the new tools available. In the process, librarians have noticed a change in library usage patterns. In many cases, a new clientele has come in to use the Internet and stayed to use other resources. Sometimes use of non-fiction materials, especially reference materials and periodicals, has dropped as patrons use the online databases and web sites found on the Internet and on *Public PIONEER*.

Public Access Internet Stations

Population	Number	Public Access Internet Stations				
Category	of Libraries	Average	Median	High	Low	
0 – 2,499	12	3	4	8	0	
2,500 – 9,999	29	6	6	17	0	
10,000 – 24,999	19	10	7	31	1	
25,000 – 99,999	7	24	18	83	5	
100,000 – Up	5	129	88	230	37	
Statewide Totals	72	17	6	230	0	

Public Access Internet Stations Per 1,000 Population

Population Category	Number of Libraries	Internet Stations/ 1,000 Population
0 – 2,499	12	2.04
2,500 – 9,999	29	1.19
10,000 – 24,999	19	0.54
25,000 – 99,999	7	0.45
100,000 – Up	5	0.45
Statewide Totals	72	0.53

Use of Library Electronic Resources

These tables indicate the number of times during the year people used a public access Internet station at the library to retrieve information, whether in the online catalog, in-house CD-ROM databases, *Public PIONEER*, or on the Internet. As indicated in the second chart, this type of library use is expanding at an accelerated rate in the larger libraries.

Number of User Sessions of Electronic Resources

Population	Number	User Sessions of Electronic Resources				
Category	of Libraries	Average	Median	High	Low	
0 – 2,499	11	1,664	1,197	4,680	0	
2,500 – 9,999	26	6,971	4,110	43,374	0	
10,000 – 24,999	18	13,313	12,288	32,932	1,248	
25,000 – 99,999	6	90,646	50,910	319,171	982	
100,000 – Up	3	574,737	678,912	842,500	202,800	
Statewide Totals	64	42,301	6,286	842,500	0	

Comparison of Number of User Sessions in 2002 and in 2003

Population Category	Number of Libraries	2002 Sessions	2003 Sessions	Percent Change
0—2,499	11	18,876	18,306	-3.0%
2,500—9,999	26	176,604	181,240	2.6%
10,000—24,999	18	245,284	239,632	-2.3%
25,000—99,999	6	411,372	543,875	32.2%
100,000—Up	3	1,064,544	1,724,212	62.0%
Statewide Totals	64	1,916,680	2,707,265	41.2%

Analysis of Library Finances

Expenditures on the following pages (excluding Maintenance of Effort data) represent operating expenditures (and capital outlay, where designated) from all sources of revenue. Those sources of revenue are broken out on pages 32 and 34, and include:

Local Government: funds derived from taxes and other revenue of the local entity (city or county) governing the library.

Local Government Contracts: monies received from cities or counties outside the library's jurisdiction. They compensate the library for providing library services to the residents of those other cities/counties, or are a city's contribution to a county library.

Other Sources: monies received from non-governmental sources. These may include fines and fees from patrons, grants from private foundations, and other donations and gifts. They do not include non-monetary gifts or donations, such as books, furnishings, or electronic equipment.

State/Federal Government: monies received from the state or federal government. These may be grants, payments for services rendered, or a combination of the two.

Expenditure Categories as a Percentage of Operating Budget

According to the Index of American Public Library Expenditures, in 2002 the nation's public libraries spent 66% of their operating budgets on salaries and benefits, 15% on library materials and 19% on other operating expenses.** Fiscal Year 2003 figures for Utah are provided below.

Population	Number	Expenditure Categories Percentage			
Category	of Libraries	Personnel	Collections	Operations	
0—2,499	12	58%	19%	23%	
2,500—9,999	29	64%	15%	21%	
10,000—24,999	19	67%	17%	16%	
25,000—99,999	7	73%	11%	16%	
100,000—Up	5	63%	19%	18%	
Statewide Totals	72	64%	18%	18%	

^{**} American Libraries, November, 2003, page 54.

Local Maintenance of Effort

The State Library Division annually offers Public Library Development Grants to libraries meeting the standards defined by the *Standards for Utah Public Libraries* (http://library.utah.gov/plstandards.html). This grant program was established with the understanding that local jurisdictions could not use grant funds to replace local monies.

The maintenance-of-effort provision for the Public Library Development Grants, adopted by the Utah State Library Board in May, 1991, reads, in part, "The local government must expend from local government sources an aggregate amount for library service (exclusive of capital outlay) of not less than 90 percent of that actually expended in the second preceding fiscal year. Failure to do so will place the jurisdiction's development grants in jeopardy under the maintenance-of-effort provisions revised and established by the State Library Board."

Operating expenditures charged to local government revenues (not including local government contracts or other, non-governmental, sources) were used to give a indication of maintenance of effort in the composite table on this page and in the table shown on pages 38-39.

The percentage change covers the two year period required by the State Library Board. The figures may show a steady increase or decline, or they may represent a one year anomaly. At the time of the awarding of the Public Library Development Grants, any library jurisdictions showing a decrease in maintenance of effort of more than 10 percent will not receive a grant. However, there is an appeals process, whereby the revenue and expenditures of the two comparisons years can be audited and changed or other extenuating circumstances explained. The State Library Board makes the final ruling.

Percent Change in Local Maintenance of Effort, 2001-2003

Population	Number	Change in Maintenance of Effort						
Category	of Libraries	Average	Median	High	Low			
0 – 2,499	11	16.4%	14.8%	59.2%	-0.4%			
2,500 – 9,999	28	12.5%	11.1%	63.8%	-6.4%			
10,000 – 24,999	19	18.8%	15.2%	71.0%	2.5%			
25,000 – 99,999	7	8.6%	6.5%	29.1%	-16.3%			
100,000 – Up	5	14.9%	16.3%	49.0%	-2.0%			
Statewide Totals	70	14.2%	12.9%	71.0%	-16.3%
